

# COLLECTION 2018/2019

**FZ FORZA®**

INNOVATED IN DENMARK 

## WELCOME TO A NEW SEASON AND THE 2018/19 COLLECTION

The past year has been a great success for FZ FORZA – our players have achieved amazing results, our brand has expanded in many countries and we have signed agreements with a lot of exciting partners, among others different national federations and the charity organization Solibad.

This great success is reflected in our new collection where you will find a strong collab with Anders Antonsen, also known as "The next one", a collection series dedicated to the non-profit organization Solibad and a Danish national teamwear series. FZ FORZA is proud sponsor of the Danish Badminton Federation supporting the junior-, veteran-, and para national team with teamwear of course made in red and white colors representing the Danish flag.

Exclusive clothing series have been developed in collaboration with Anders Antonsen on the male side and two strong women players on the women side. For these two limited edition clothing series the players have chosen colors, style and prints creating a unique look in the spirit of the players representing FZ FORZA every day on court.

Another strong and meaningful partnership presented in the new collection is the Solibad project which through badminton helps children in different parts of the world. FZ FORZA supports the non-profit organization by donating 1000 rackets a year and by donating 8% of the Solibad collection to their projects.

As always FZ FORZA is at the forefront when it comes to innovative new technical features on badminton equipment and this year you will find a brand new very technical frame Power 9X. This frame has been twisted 9 times to increase durability and stiffness in the frame, and you will find it on FZ FORZA Power 9X-300 and Power 9X-290.

The 2018 collection has generally been inspired by the talented players and projects surrounding FZ FORZA and we are proud to finally present this unique collection and encourage you to flick to the next page and explore with us.

We hope you will enjoy the FZ FORZA 2018/19 collection and look forward to an exciting season.

Kind regards

**Martin Lundgaard**

# OUR MODELS

---

An important asset in FZ FORZA is our players, representing what we call Team FORZA. No other would present our newest collection better than the talented players representing FZ FORZA every single day.

This year we made a strong collab with two of our FZ FORZA players and these players are not only presenting the new clothing in this catalogue but they have also been a big part of the design process in the two limited edition clothing series - AA collab and Women's collab.

Choosing colors, prints and styles and showing you this years collection are "The next one" Anders Antonsen, and our amazing swedish women player, Clara Nistad.

Get ready to be inspired while a part of Team FORZA guides you through our new collection.

# CLOTHING

## COLLECTION 2018

---

The FZ FORZA clothing collection is based on the proud Danish design and quality tradition ensuring both a stylish look and a comfortable as well as durable quality. With professional research and development our fabric qualities are carefully picked out by our Danish design team and afterwards tested by our top badminton players around the world.

When designing the collection all the different movements from the badminton sport is considered, footwork, jump, swing etc. ensuring a comfortable fit in every design. Comfortable clothing are essential when performing your maximum on court and we will make sure that you both feel and look world class when smashing the shuttle.

# INTRODUCING

## FZ FORZA TECHNOLOGIES

### ANTISTATIC

When moving around you create static electricity, but our fabrics prevent the garments from sticking to your body. To avoid your garments from being static, please do not tumble dry.

### DRYFORZE

DryForze keeps you comfortable during the game! With the unique DryForze treatment, we ensure maximum comfort. DryForze makes the fabric perspiration transporting, quick drying and super pleasant to wear, and the DryForze capabilities will stay with your clothes for much longer than similar technologies. Fabric treated with DryForze has high breathability and a cool wearing comfort.

### STRETCHABLE

Most fabric is stretchable either by knitting or due to added elasthane. We make sure that the style has just the right stretch in order for the style to both fit the body and give comfort.

### ANTI-PILLING

Our garments are made in fabrics either constructed to avoid anti-pilling or fabrics that are given an anti-pilling treatment. Even after washing several times, the surface will still look good.

### ANTI SHRINK

All garments have been preshrunk to avoid size changing. Follow the care label and your FZ FORZA clothes should be your favorite badminton clothing for years.

Clara Nistad

Anders Antonsen

# AA COLLAB

---

Get ready to gear up with Europe's biggest single talent!

As a tribute to Anders Antonsen's big talent, we have collaborated with Anders and created a stunning line of limited edition gear fit for a rising talent.

Anders Antonsen got himself noticed in 2016, not just because of his great play on court but also for putting words on his ambitions. "I'm the next one" – those were the words from the young talent after winning Scottish Open. And when looking at his past couple of years this ambition does not seem unrealistic at all!

Anders Antonsen did in a year move more than 700 steps forward on the world ranking – which reveals some of the talent he is made of.

2017 also became the year where Anders won silver at the European Championship and became the Danish national champion.

# WOMEN'S COLLAB

---

Together with our amazing women player we have created a unique limited edition women's series. The collection is designed in collaboration with Clara Nistad from Sweden.

Our player wished for comfortable and stylish clothing, which have been accomplished in this limited edition clothing series. The combination between pickled beet and sparkling cosmo creates a unique color combination used in different prints on the styles. To complete the look of the polos and tees a matching skirt has been created. The Rieti skirt has a unique cut and mix of fabrics making it both super comfortable to wear and good looking

# BASIC COLLECTION

---

The Basic series is basic styles with great comfort and great colors. The tees and shorts are made in a light weight material that ensures great fit and breathability. The tees and shorts in the Basic series are treated with Dry-Forze, which means they are quick drying and perspiration transporting. This treatment contributes a cool wearing comfort that makes sure the styles have high breathability and spreads your body heat.

# SHOE

## COLLECTION 2018

### - THE TECHNOLOGIES

With the right badminton shoes, you can prevent injuries and perform better on court. Put simply, badminton shoes have to be comfortable, improve your game and prevent injuries. These three factors are the basics in all FZ FORZA shoes.

A lot of people focus on the racket when buying badminton equipment, but shoes, and the right shoes, are at least as important as the racket. A pair of good shoes is essential to perform. Badminton is an extremely fast-paced game that requires a lot of movement in different directions. You move back and forth, from side to side and jump. The game requires quick changes in pace and direction, making quick footwork essential in badminton. Any slip hurts your performance or even worse, your body!

The FZ FORZA shoes are made in materials quality checked in rigorous test to make sure that it is suitable and stable. Before the shoes enter the market they are furthermore tested by professional badminton players and if necessary, improvements are made before you find it on the shelves.

**LAT**

The lateral stability technology enhances the durability of the shoe and the lateral stability of the forefoot during intense and rapid transfer of direction. Lateral stability is important in a badminton shoe when moving quickly around on court from side to side.

**DURA-COAT**

Our High-tech microfiber PU treated with a thin coating. The combination of Dura-coat gives the shoe an extreme durability and a unique abrasion resistance. Dura-coat is applied on areas where the shoe is most exposed for abrasion.

**X-TECH**

The ankle is exposed for twisting in the many sideways motions in badminton. A twist in the ankle is one of the most common injuries in badminton, but with the evolutionary FZ FORZA X-Technology the stability of the ankle is increased which prevent/reduce the twisting of the ankle.

**DRYLEX**

Consists of special mesh layer and holes in the shoe that provides excellent breathability for the feet. Drylex helps transporting moisture away from your feet to keep them dry and comfortable.

AN EASY GUIDE THROUGH THE  
**FZ FORZA** TECHNOLOGIES,  
AND WHAT THIS MEANS TO  
YOU ON THE COURT

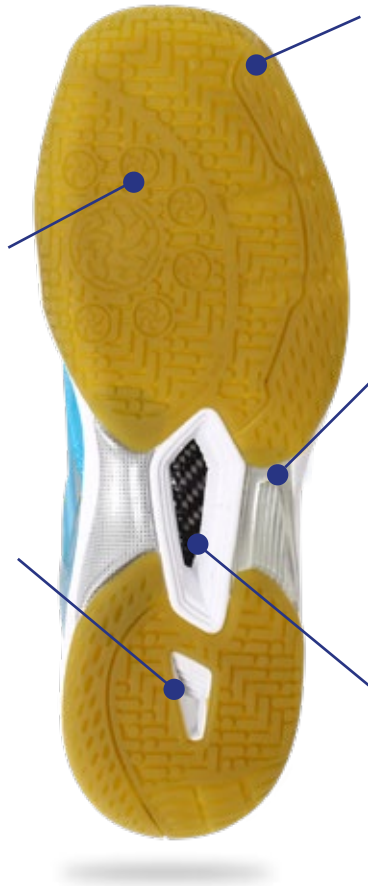

### FZORB

FZorb is a fantastic material for shock absorption. By molding the FZorb into the heel-area of the sole, decreases the many hard shocks that player's feet are exposed to during the game, as well as providing increased comfort for the player.

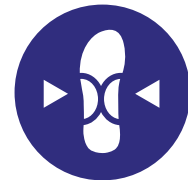

+ Is FZorb molded into the forefoot area of the sole, to provide a greater shock absorption, particularly when during jumps and sidesteps. In addition, FZorb+ enhanced the comfort compared to FZorb.

++ For a larger shock absorption is FZorb++ the right choice. These shoes are provided with a hole under the heel, making room for an increased deformation of the material which increases the shock absorption.

### F-ZONE

Our FZone Grip ensures excellent grip with the court which supports the slip resistance. FZone Grip consists of various patterns that support variety of movements in badminton, so the grip on the court is optimal in all game situations. We only use rubber of the highest quality to ensure an extremely wear resistant outsole.

### ASE

By inserting this light weight TPU piece under the arch creates both a lighter and stronger shoe but also more stable. ASE supports the arch and helps prevent pronation and torsion in the shoe for increased functionality and comfort.

+ By extending the ASE, the FZClaw appears on the lateral side of the forefoot. FZClaw significantly enhances the lateral stability of the foot and provides the shoe extra durability during intense and rapid transfer of direction.

### TUCK BOARD

With our Tuck Board increases the shoe's torsional flexibility. Torsional flexibility supports the foot's natural movement and allows the foot to move faster. Our Carbon Tuck Board is made of three-dimensional carbon fiber sheets that support the torsional movement and reduce stress on the arch tendon.

# LINGUS V4

NOW STRONGER THAN EVER

**FZ FORZA®**

INNOVATED IN DENMARK 

FZ FORZA now introduces the successful Lingus top shoe in new updated colors and in an even stronger version. Extra Dura-Coating provides durability while the flexibility of the shoe is kept intact.

A shoe providing effortless movement match after match!

01146 ATOMIC BLUE

302613  
**LINGUS V4 M**

The successful Lingus shoe - now stronger than ever. The toe parts have been reinforced by adding rubber print at the medial side of the toe. The upper material has been updated with high density PU making the Lingus V4 strong while kept flexible.

- Sizes: 36-48

also available in size  
37.5, 39.5, 40.5,  
44.5 and 45.5

AN EASY GUIDE THROUGH THE  
FZ FORZA RACKET TECHNOLOGIES,  
AND WHAT THIS MEANS TO  
YOU ON THE COURT

# RACKETS

## -THE TECHNOLOGIES

The racket technology has changed a lot the past 25 years, and the advanced technology has contributed to more speed and power in badminton. This also means that we as racket manufacturer have to make even better rackets and always improve our racket technology. It would not be possible to use the old wooden rackets in today's speed and power game. The trend has moved towards lighter rackets bringing the required speed into the game. On the other hand it is important to maintain a certain weight in the frame to produce the power which is also very much needed on court.

FZ FORZA is at the forefront when it comes to badminton racket technology, and this year's racket collection is no exception.

## MATERIALS

### Kevlar®

Kevlar® is a very advanced material which combines great strength with light weight. The material is elastic and yet 5 times stronger than steel. Therefore Kevlar® has a lot of uses and is used for bulletproof vests among other things. When FZ FORZA uses Kevlar® in combination with graphite in the rackets we can make light and extremely strong rackets with a lot of power. Kevlar® helps absorb the shock at impact, making the racket feel soft and comfortable which lets you generate more power.

### TITANIUM

Titanium is a very light and rigid material which is used to build space shuttles among other things. The combination of graphite and titanium increases the racket's durability and gives the racket increased control.

### CARBON NANO TUBES

As we continue to improve our rackets and strive towards creating the best racket in the world, we continually research and develop new materials and ideas to take our rackets to the next level. Carbon Nano Tubes (CNT) is based on extraordinary small scale advancements in the material construction. Thanks to our cooperation with Aalborg University in Denmark, FZ FORZA is able to introduce world-class rackets manufactured using polymer composite materials modified by Multi-Wall Carbon Nano Tubes (MWCNT). Thanks to the MWCNT technology your FZ FORZA racket has improved durability in comparison with conventional rackets. The polymer resin that binds the carbon fibers together will ensure toughness and damage tolerance.

### HM ULTRA HIGH MODULUS GRAPHITE

This material is used to enhance the performance in our very best rackets. The ultra high modulus graphite is stronger and stiffer than ordinary graphite, creating rackets that have less torsion and more power. This will give you more accurate and powerful strokes.

## SHAFT

The **shaft** determines the racket's qualities, and so the choice of shaft is very important in terms of getting the most benefit from your racket. Players with a good technique have good rotation in their lower arms which transfers into a force at impact. If you rotate in your lower arm it is very easy for you to hit a shuttlecock to the baseline and you do not need further help from the racket. Players with a good technique would normally benefit from a rigid shaft, and players with less rotation would benefit from a flexible shaft. A flexible shaft gives a flick which adds speed to the shuttlecock, but it takes a bit longer for the shaft to settle which is okay if it is a slow-paced game. A rigid shaft is stable and doesn't torque and gives better control of your stroke. This is especially helpful in fast-paced games.

### SLIM SHAFT

The slim shaft greatly reduces the air resistance when swinging and it greatly increases your swing speed but with less effort. The FZ FORZA slim shaft rebounds almost as fast as a conventional shaft, meaning that you get much more stability and accuracy, making it a superior choice when you are looking for a slim shaft racket.

The new innovative Power frame from FZ FORZA is a little wider at the top of the frame. An aerodynamic frame for great swing speed and the little wideness in the top gives you less torsion and extra power at impact.

The slim frame is 12-18% thinner than conventional rackets. We achieve this by combining superior high grade materials and resins with our proprietary production methods to achieve a slimmer racket frame that moves faster through the air, without sacrificing power or torsion.

Our air flow frame reduces drag and air resistance during your stroke, enabling you to deliver more power and precision. Furthermore the more rigid T-joint construction offers a much more stable frame with almost no torsion, allowing you to put the shuttle exactly where you want it.

The slightly oversized frame helps increase the sweet spot for easier shot-making and increased fun while playing. The racket is still light and the special shape of the oversize head means that you will still be able to generate lots of power. The future of oversize rackets has started here.

FZ FORZA has developed a hexagon frame which is more narrow and stronger than usual. It gives reduced air resistance and less torsion. That means faster reactions, better control and more power.

## FRAMES

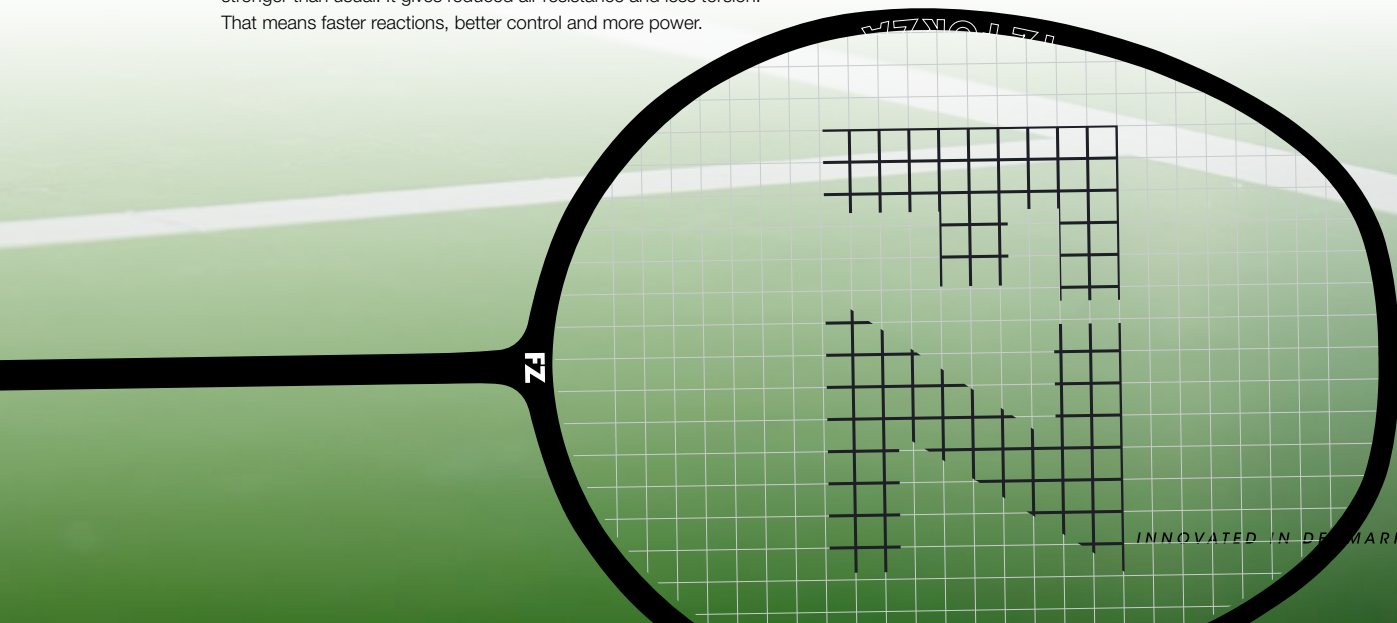

The structure of **the frame** or racket head is important in relation to the force that has to be transferred to the shuttlecock from the rotation in the wrist and arm and the flexibility in the racket shaft. The less torsion in the frame – the more force will be transferred and the more control you have of your hit. The weight of the frame is also important for how the racket feels when hitting. A head-light racket has the weight distributed in the shaft and grip. It requires that your technique is good and that you have rotation and impact force. You will feel that your racket is very easy to move. A head-heavy racket primarily has its weight in the frame. It is best suited for a person that relies more on fitness, power and endurance than technique. You may feel that your racket is a bit slow to move, but it gives you extra power when hitting. A racket with an even balance has the weight distributed evenly between head and shaft. You will feel more power when hitting, but the racket is a bit slower to move.

Combining the benefits of the hexa and octagon shape, this innovative shape gives you both increased strength in the racket, while being thinner on top. Decreased air-resistance combined with less torque makes this a precise, fast and durable weapon on court.

FZ FORZA has developed an octagon frame which ensures that the air flows around the frame with greater ease, thus increasing your reaction time. The frame is also more narrow and stronger than usual reducing air resistance and providing torsion. The frame design is extra durable, making you play stronger for longer.

# POWER

## RACKETS FOR THE ATTACKING PLAYER

---

Introducing a line of rackets designed to give you more POWER! A line of rackets for the attacking player that wants more power in the shots, and finish the rallies fast.

302356

**FZ FORZA  
POWER 999**

<b>Holes</b>	88
<b>Weight</b>	88g
<b>Balance</b>	300 mm
<b>Flexibility</b>	Stiff (4)
<b>Shaft</b>	40 T - Reinforced CNT U-HM
<b>Frame</b>	40 T - Titanium Reinforced CNT U-HM
<b>Power</b>	10
<b>Player</b>	Offensive
<b>Tension</b>	22-30 lbs

A new developed frame that focusses on power. Aerodynamic for great swing speed, balance point 300mm and a little wider in the top of the frame with extra power for you makes this racket the perfect choice for the attacking player that like to finish the rally with a great power smash.

302000

**FZ FORZA  
POWER 996**

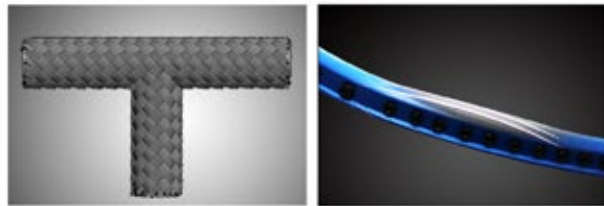

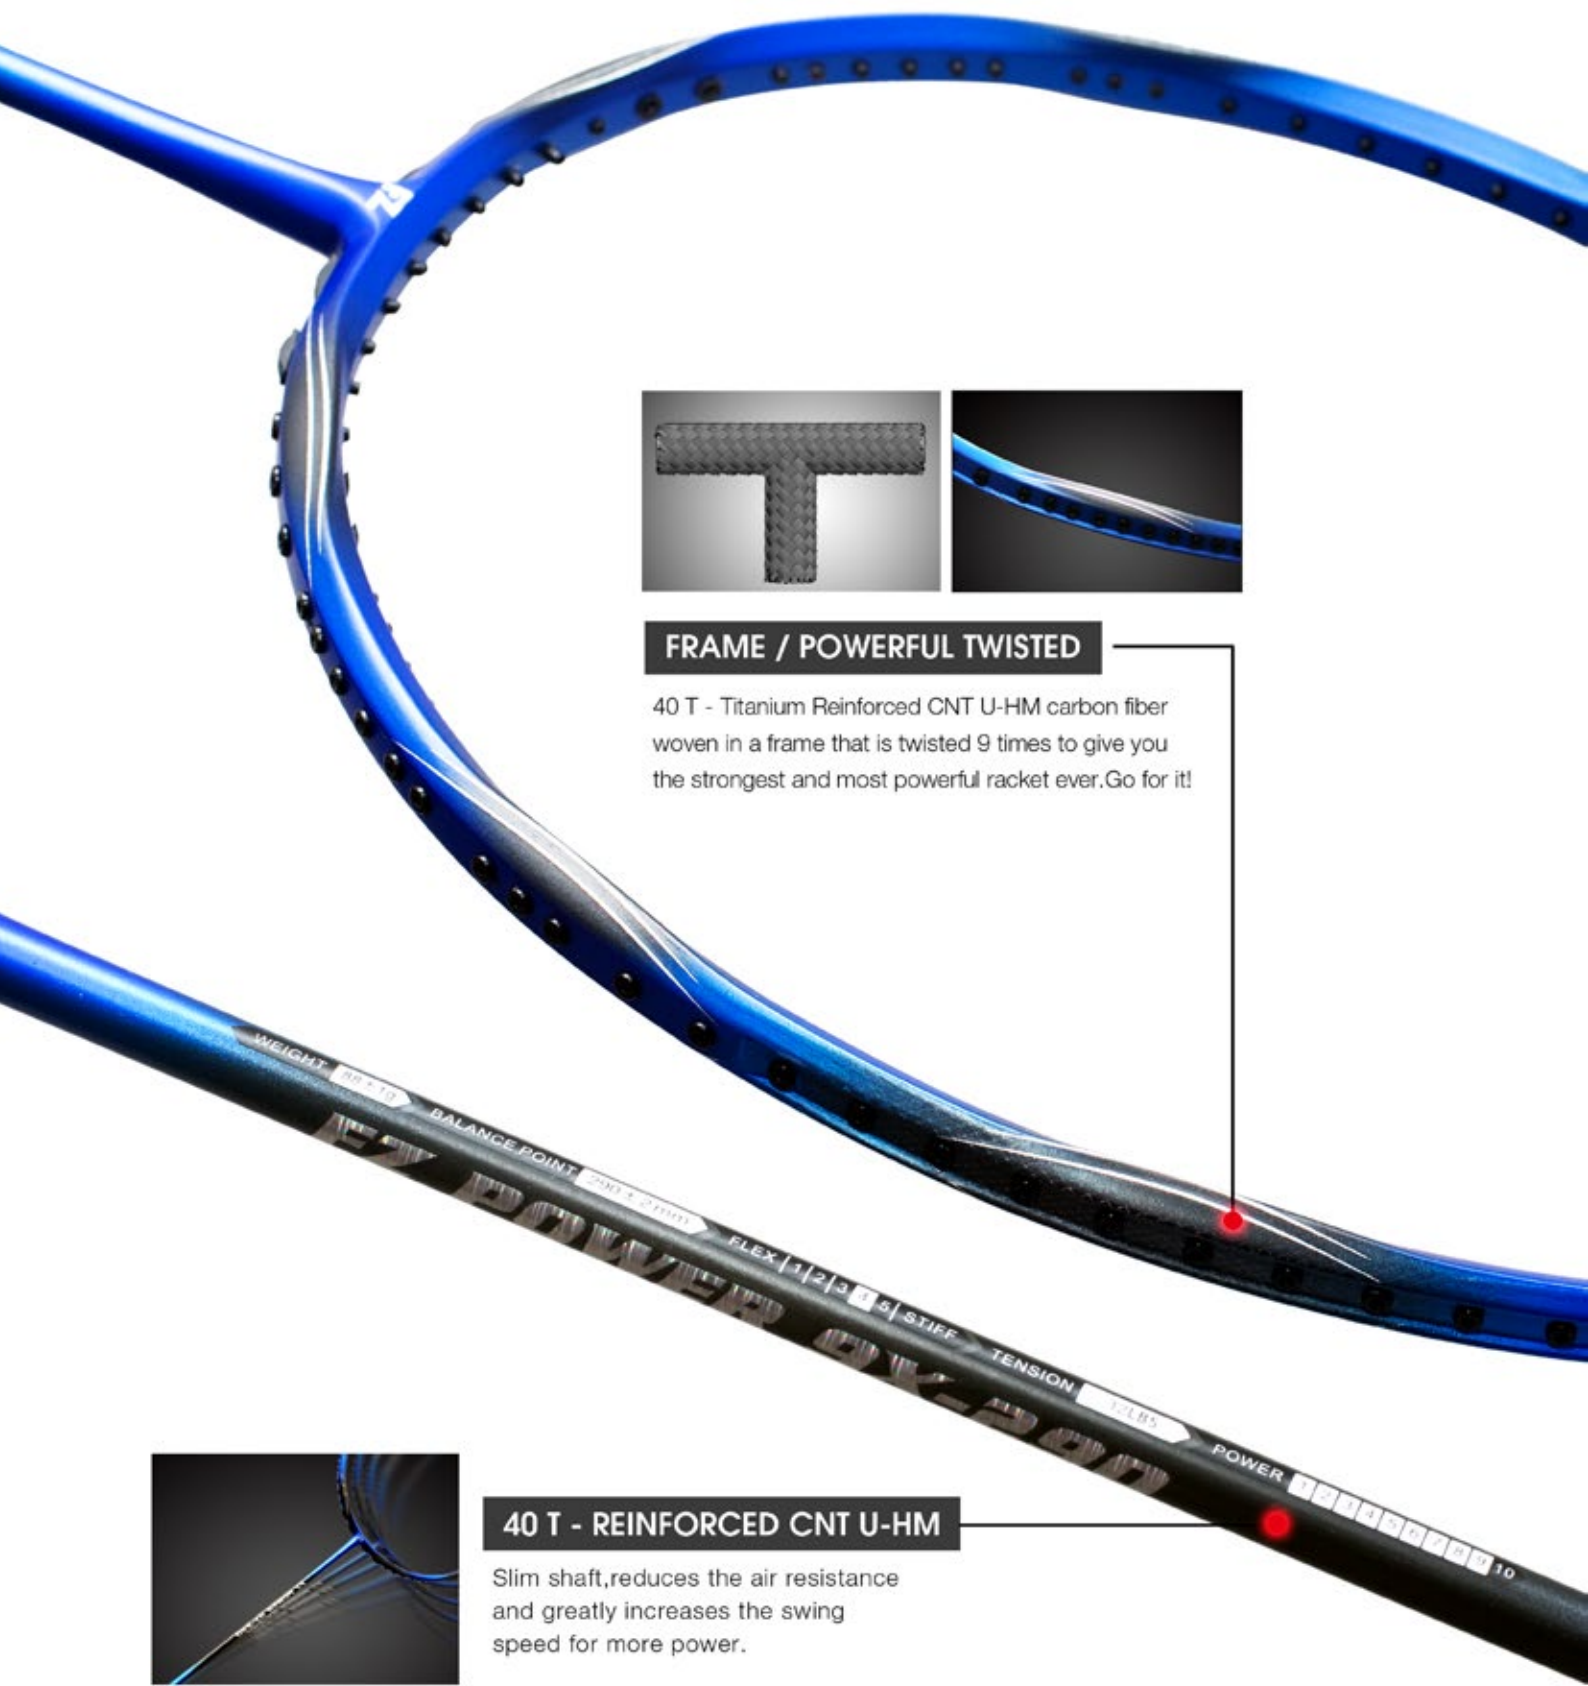

<b>Holes</b>	96
<b>Weight</b>	86g
<b>Balance</b>	295 mm
<b>Flexibility</b>	Very Stiff (5)
<b>Shaft</b>	40T - Kevlar Reinforced CNT U-HM
<b>Frame</b>	40T CNT U-HM graphite with 4pcs Ti.
<b>Power</b>	10
<b>Player</b>	All round
<b>Tension</b>	22-28 lbs

With this racket we are re-launching our innovative and recognised 96 holes string system. The 96 holes string system offers the best in control, while the titanium reinforced head, makes sure you have superior accuracy and the Kevlar® shaft gives you power. This racket offers the best in control and power, and is designed for elite and tournament players only.

# NEW FZ FORZA POWER 9X-290 AND 300!

## FRAME / POWERFUL TWISTED

40 T - Titanium Reinforced CNT U-HM carbon fiber woven in a frame that is twisted 9 times to give you the strongest and most powerful racket ever. Go for it!

## 40 T - REINFORCED CNT U-HM

Slim shaft, reduces the air resistance and greatly increases the swing speed for more power.

302598  
**FZ FORZA  
 POWER 9X-290**  
**Holes** 88  
**Weight** 88g  
**Balance** 290 mm

We now offer all the benefits of a graphite racket, weight, handling, superior feel to the future of badminton at very affordable price. If you want the best for your kids, this is the only way to go.

# LIGHT

## RACKETS SPEED AND EASIER PLAY

---

If you are looking for speed, and easier play, this is where you should look. Introducing a range of rackets, that are light, thin, fast and furious.

For defensive players, fast paced doubles and up coming players.

302139  
**FZ FORZA LIGHT 9.9**

<b>Holes</b>	88
<b>Weight</b>	82g
<b>Balance</b>	295mm
<b>Flexibility</b>	Medium (3)
<b>Shaft</b>	40T CNT U-HM graphite
<b>Frame</b>	40T CNT U-HM graphite
<b>Power</b>	10
<b>Player</b>	Fast
<b>Tension</b>	22-30 lbs

Lethal, light, luxurious design. Lift your game with our top model in our innovative light series. With our innovative Air Flow Frame, the joint will make sure there's no torsion in the frame when hitting, granting you legendary accuracy. The "snake skin" reinforced frame builds on the accuracy and the exclusivity of this racket. Head heavy to help generate power. Stiff for accuracy. Light for speed and manoeuvrability. A top of the line racket, crafted for tournament and elite players, but will help elevate anyone's game!

302140  
**FZ FORZA LIGHT 9**

<b>Holes</b>	88
<b>Weight</b>	82g
<b>Balance</b>	300mm
<b>Flexibility</b>	Very Stiff (5)
<b>Shaft</b>	40T CNT U-HM graphite
<b>Frame</b>	40T CNT U-HM graphite
<b>Power</b>	10
<b>Player</b>	Fast
<b>Tension</b>	22-30 lbs

For the player that is looking for extreme speed and manoeuvrability combined with high accuracy and control this is the racket! With a thin frame, a thin shaft combined with the weight this racket offers unparalleled speed. The very stiff staff makes sure that the shuttle goes where you want, while the 88 holes string system offers superior control and feel.

301918  
**FZ FORZA LIGHT 8**

<b>Holes</b>	88
<b>Weight</b>	78g
<b>Balance</b>	297mm
<b>Flexibility</b>	Stiff (4)
<b>Shaft</b>	40T CNT U-HM graphite
<b>Frame</b>	40T CNT U-HM graphite
<b>Power</b>	9
<b>Player</b>	Fast - Double players
<b>Tension</b>	22-28 lbs

Thin aerodynamic frame, light and head heavy. You demanded and of course FZ FORZA rises up to the challenge. This racket is especially designed for the fast pace in doubles. Excellent playing capabilities and almost no torsion for accuracy. Slim frame and light for faster strokes and head heavy to help create a threat from the back court and once you turned your defense into offence. This is an excellent racket recommended for everyone who wants the fastest action on court.

302141  
**FZ FORZA LIGHT 7**

<b>Holes</b>	88
<b>Weight</b>	82g
<b>Balance</b>	295mm
<b>Flexibility</b>	Medium (3)
<b>Shaft</b>	40T CNT U-HM graphite
<b>Frame</b>	40T CNT U-HM graphite
<b>Power</b>	8
<b>Player</b>	Fast
<b>Tension</b>	22-28 lbs

Speed and power combined are the key words for this racket. This head heavy racket offers power, while the weight makes it easier to manoeuvre the player that doesn't have a racket for an arm. A good choice for leisure and competitive players looking for a lighter racket.

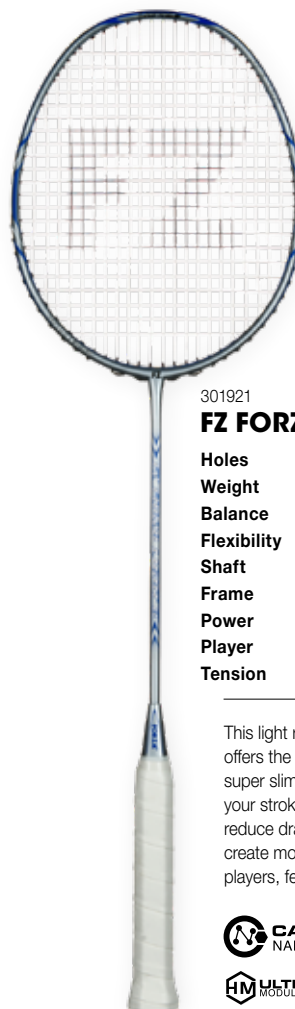

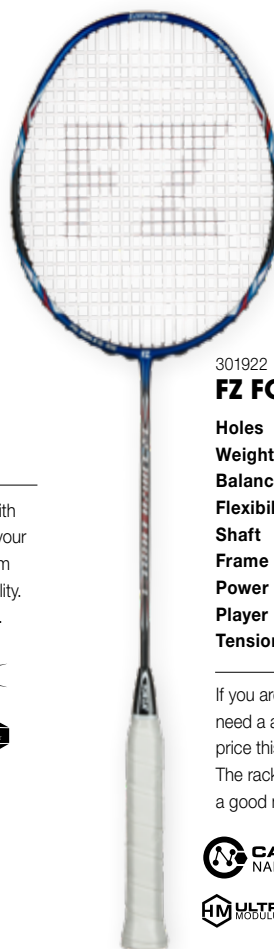

301920  
**FZ FORZA LIGHT 6**  
**Holes** 88  
**Weight** 80g  
**Balance** 290mm  
**Flexibility** Medium (3)  
**Shaft** 30T CNT U-HM graphite  
**Frame** 30T CNT U-HM graphite  
**Power** 7  
**Player** Fast  
**Tension** 22-28 lbs

If you want speed and feel comfortable with an evenly balanced racket, this should be your new preferred racket. The frame is titanium reinforced for added accuracy and durability. For leisure players who like the fast game.

301921  
**FZ FORZA LIGHT 3**  
**Holes** 76  
**Weight** 80g  
**Balance** 285mm  
**Flexibility** Flexible (2)  
**Shaft** 24T CNT U-HM graphite  
**Frame** 24T CNT U-HM graphite  
**Power** 5  
**Player** Leisure  
**Tension** 22-28 lbs

This light racket lies very well in your hand and offers the player a very good light racket. The super slim shaft further increases the speed and your strokes, while the aerodynamic frame helps reduce drag. The shaft is flexible to help players create more power. We recommend it for leisure players, females and junior players.

301922  
**FZ FORZA LIGHT 1**  
**Holes** 76  
**Weight** 80g  
**Balance** 290mm  
**Flexibility** Medium (3)  
**Shaft** 24T CNT U-HM graphite  
**Frame** 24T CNT U-HM graphite  
**Power** 6  
**Player** All round  
**Tension** 22-28 lbs

If you are looking for a light weight rackets and need a all-round good racket at a competitive price this will leave the competition behind. The racket is lighter than normal but still offers a good mix of playability, accuracy and power.

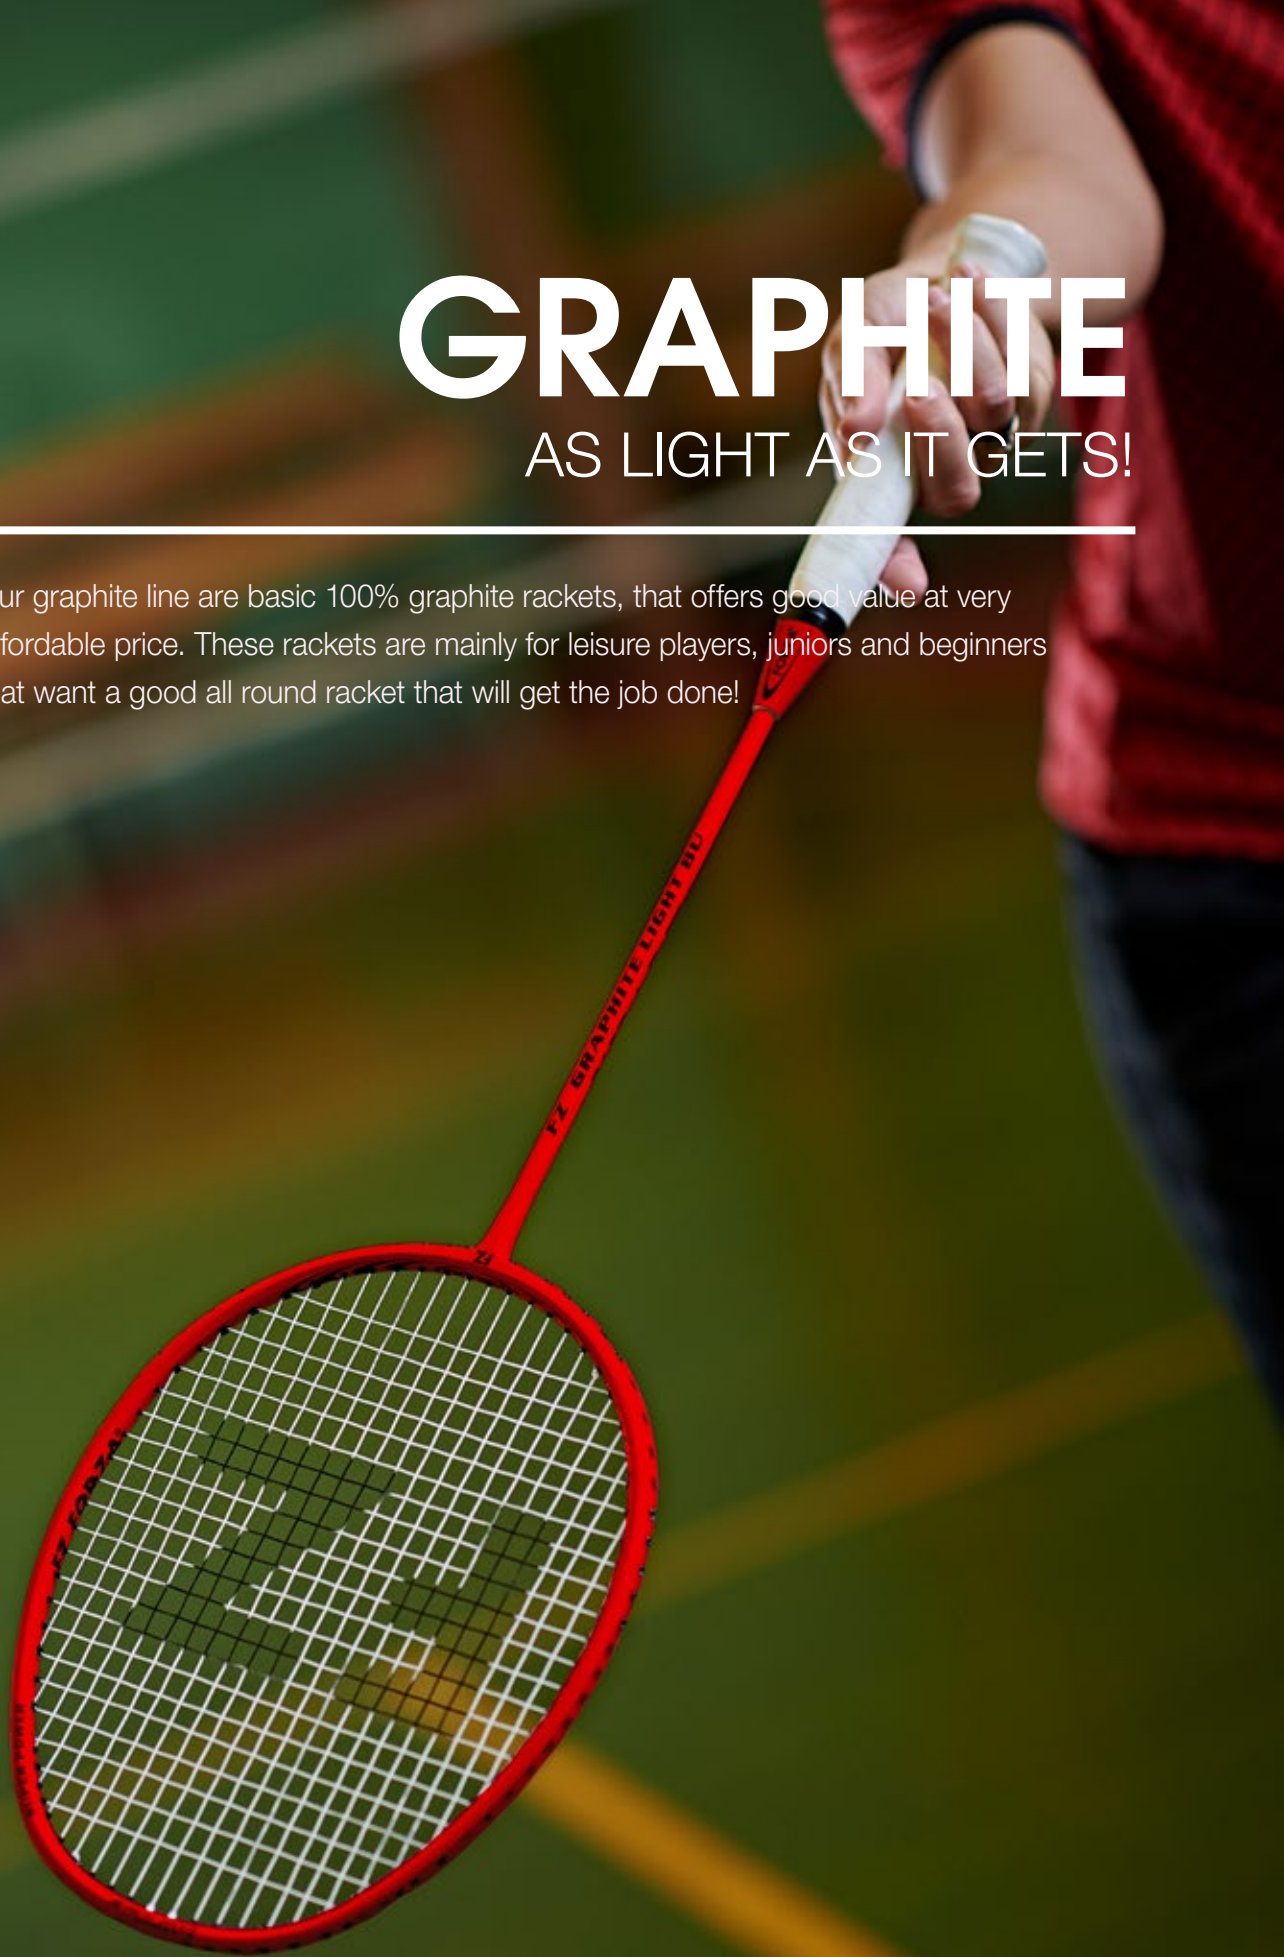

# GRAPHITE

FZ FORZA

# SHUTTLES

---

A shuttlecock is a finely balanced product. The quality depends on what the geese deliver. The rotation is regularly measured by an infrared beam to achieve an optimum flight. Every single FZ FORZA shuttlecock is extensively controlled by machinery and by inspectors. The shuttlecocks are sorted out for flight, speed and durability.

301554  
**FZ FORZA VIP**

This 1st grade goose feather shuttle is the perfect tournament shuttle. Super response, accuracy, excellent flight and good durability. Perfect performance

302657  
**FZ FORZA S-8000**

This 1st grade goose feather shuttle is the perfect tournament shuttle. Super response, accuracy, excellent flight and good durability. Perfect performance

301555  
**FZ FORZA S-6000**

Tournament shuttle. Value for money. Superb flight and playability. Perfect in appearance.

301556  
**FZ FORZA S-5000**

1st grade training shuttle with super appearance and flight. Good for players that play often and demand excellent flight and playability at a low price.

301557  
**FZ FORZA S-3000**

1st grade training shuttle with super appearance and flight. Good for players that play often and demand excellent flight and playability at a low price.

301559  
**FZ FORZA S-2000**

An extremely durable shuttle, excellent value for money. If you are looking for durable this is the shuttle for you.

301560  
**FZ FORZA S-1000**

Basic training shuttle, very durable and good flight.

302440  
**FZ FORZA NS-10**

NS-10 is a unique nylon shuttle with a natural cork head that gives you playability like the best feather shuttles. NS-10 comes with an updated skirt with increased durability. The natural cork head will give you a superior feel from the nylon shuttle. Suitable for ultimate training and tournaments for club players.

301809  
**FZ FORZA NS-9**

This gives this shuttle a superb flight performance and a long durability. Our girdle design has double stitching for increased durability. The Natural cork head means that you will have superior feel from this nylon shuttle. For training and tournaments.

301810  
**FZ FORZA NS-7**

Our designed nylon shuttle. The NS-7 has a unique vane pattern in the skirt which imitates the natural pattern from the best feathers used in natural tournament shuttles. This gives this shuttle a superb flight performance and a long durability. Our girdle design has double stitching for increased durability. With the synthetic cork you get an extremely durable shuttle. Suitable for training for club players.

Racket stringing  
– how to string a racket

## CHOICE OF STRINGS

### Thin gauges (0,62 – 0.70 mm):

Recommended: For tournament players and players who want to have more fun and win more games. Listen to the strings and hear the music.

Advantages: Less air resistance · faster reactions · greater power · less string tension = longer racket life.

Disadvantages: Less durability and more expensive maintenance.

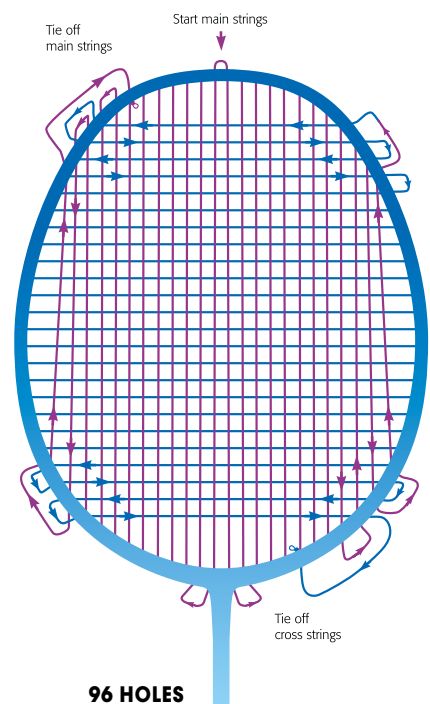

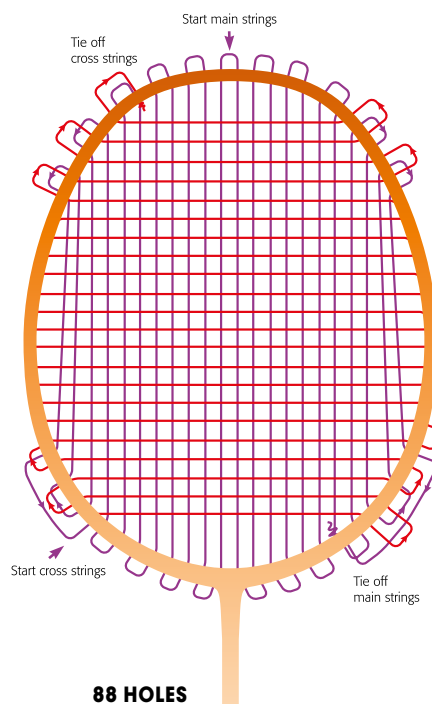

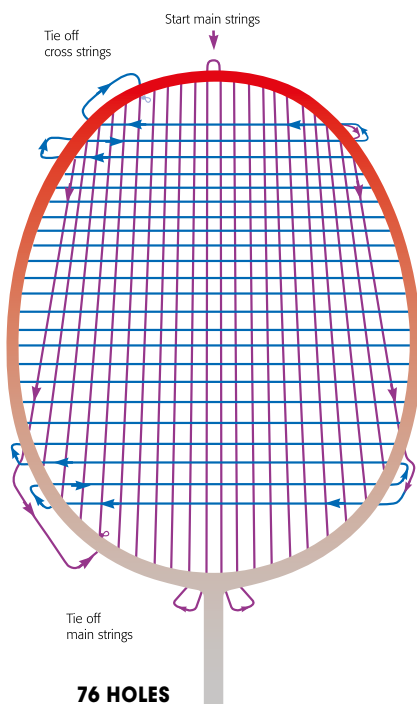

### Thick gauges:

Recommended: For amateur players, beginners, and players who often hit the shuttlecock outside the impact surface.

Advantages: Longer life and thereby less expense.

Disadvantages: More air resistance · slower strokes · a little less power.

## HOW TO STRING A RACKET

301896

**FZ 68 POWER PLUS**

<b>Power</b>	6
<b>Playability</b>	6
<b>Durability</b>	5
<b>Lenght</b>	10 m (1 set)
<b>Gauge</b>	0,68 mm

The FZ 68 Power plus string is great for holding string tension and offers superior repulsion with a high clear sound. FZ 68 Power plus is the perfect choice for the advanced player who is looking for power and the ultimate sound.

301895

**FZ 68 POWER PLUS**

<b>Power</b>	6
<b>Playability</b>	6
<b>Durability</b>	5
<b>Lenght</b>	200 m
<b>Gauge</b>	0,68 mm

The FZ 68 Power plus string is great for holding string tension and offers superior repulsion with a high clear sound. FZ 68 Power plus is the perfect choice for the advanced player who is looking for power and the ultimate sound.

<b>Power</b>	5
<b>Playability</b>	5
<b>Durability</b>	5
<b>Lenght</b>	200 m
<b>Gauge</b>	0,70 mm

Used in all FZ FORZA full graphite rackets. A top quality multifilament string, which offers superior playability. A thin string which gives low air resistance but still with a good durability and superior tension holding. A tournament string offering extremely good playability and power. Recommended for all players.

# GRIP

---

FZ FORZA offers a wide range of accessories including grips.

Grip is important because if you do not hold the racket correctly, you will find it difficult to produce winning strokes. Therefore, grip is a part of the basis for all racket skills and using a good grip is one of the first steps to mastering the badminton game.

If you buy a good grip, you will have smashes that are more powerful and you will have shots and serves that are more accurate. You will feel more connected with the racket, which is important when the racket is your weapon in the game.

At Active Sportswear Int., including FZ FORZA, we work strategically with corporate social responsibility (CSR), and as a part of this work we are now a member of the European Organization Business Social Compliance Initiative (BSCI). BSCI is an organization, helping members securing that human rights are respected, and that there are decent working conditions in the supply chain. BSCI has an international Code of Conduct and carry out the third party audit of international, independent auditors, authorized to make these audits. With our membership of BSCI we have taken a quantum leap in our commitment to strategic supply management.
